STAKEHOLDER NEED · SN-4
A reader should be able to see the limits of each metric before relying on it.
traced from
PARENT · SYS-2
The pipeline shall assign every row one status with a logged reason.
RATIONALE
Prior work: such scores only weakly track human judgement on context files (ρ = 0.19). Rejected: rating scale with rater agreement (work exceeds the decision it supports); LLM labels (paid; $0 budget).

FUNCTIONS
F3.5.7 Assemble readability table: R9 to R11 to I4.
F5.1 Compute statistics: I5 to O1.
satisfies
REQUIREMENT · RD-6 (critical)
The module shall not label a grade as a quality score.
verified by
VERIFICATION · T05.6 (P2, M3, M4)
Fault injection on controlled inputs. Pass: no grade is labelled a quality score.
allocated to
flows down to
LOGICAL ELEMENTS
Results writer labels each score, and the analysis stage carries that label into tables and figures.
built with
PHYSICAL ELEMENTS
Label column in the Parquet readability table
DERIVED · RD-10
The module shall export the 40 extreme-graded English skills for hand review.
