STAKEHOLDER NEED · SN-4
A reader should be able to see the limits of each metric before relying on it.
traced from
PARENT · SYS-2
The pipeline shall assign every row one status with a logged reason.
RATIONALE
The formulas were calibrated on general text, not agent instructions.
Rejected: rating scale with rater agreement (work exceeds the decision it supports); LLM rater (breaks PF-03).

FUNCTIONS
F3.5.9 Assemble readability table: R9 to R11 to I4.
F5.1 Compute statistics: I5 to O1.
satisfies
REQUIREMENT · RD-6 (critical)
The module shall not present a grade as a measure of skill quality.
verified by
VERIFICATION · T05.6 (P2, M3, M4)
Fault injection on controlled inputs.
Pass: labels say reading-level estimate, never quality.

flows down to
LOGICAL ELEMENTS
Results writer labels each score, and the analysis stage carries that label into tables and figures.
DERIVED · RD-10
The team shall hand-review the 20 highest- and 20 lowest-graded skills and record whether each grade fits.
